## PERSISTENT ATTACKS

Made on the British Forces by the Boers Near Thaba N'Chu.

## ADDITIONAL CASUALTIES GIVEN.

Lord Roberts Reports the Death of Lieutenant Geary and Two Enlisted Men Killed and Several Others Wounded

London, May 1.—The following dispatch has been sent by Lord Roberts to the war office from Bloemfontein: "The Boers made very persistent attacks round Thaba N'Chu Saturday and Sunday. But the position which the Eighth (Rundles) division holds is very strong, and he had the assistance of Gordon's and Dickson's brigades, the cavalry under French and Smith-Dorrien's infantry brigade, and a body of mounted infantry under Ian Hamilton. Pole-Carew's division returned from Dewet's Dorp Monday."

Lord Roberts also reports additional casualties sustained during the fighting of April 27 around Thaba N'Chu, consisting of Lieutenant Geary and two enlisted men killed and one officer and three enlisted men wounded.

Neither the commander-in-chief nor the correspondents' dispatches throw any light on the plans being adopted to oust the Boers from the neighborhood of Thaba N'Chu, and how long before a determined effort will be made to reassert British superiority is only a matter of surmise.

In the meantime the Boers are remarkable aggressive, especially in view of the large forces opposing them. A special dispatch from Thaba N'Chu says they made a daring attempt to cut off a British convoy, which got into broken ground by Thaba N'Chu and Dewet's Dorp, opening fire from the adjacent hills. In the nick of time General Brabazon, with a strong force of Yeomanry returning from Wepener, arrived on the scene and extricated the convoy.

The Cape parliament has been summoned for June 22.

At the conclusion of General Sir George White's visit to Windsor, Queen Victoria decorated the hero of Ladysmith with the cross and star of the Royal Victorian order.

Her majesty and the soldier had a lengthy conference. It is learned that the queen was more angry than for years over the publication of the Spion Kop dispatches.

Battle In Progress.

London, May 1.—The war office has received the following dispatch from General Roberts at Bloemfontein: "Ian Hamilton marched Monday in a northerly direction from Thaba N'Chu with a body of mounted infantry and Dorien's brigade of Clement's division. At Hautney he found himself opposed by a strong force commanded by General Botha in person. Reinforcements reached this force during the day, and I directed French to strengthen him during the night from Thaba N'Chu. This he was able to do, as the number of Boers in the neighborhood of Thaba N'Chu had considerably decreased. In addition to these troops Hamilton should be reinforced during the day by Broadwood's cavalry and Bruce-Hamilton's infantry brigade. Hamilton mentioned that his casualties were about 30. Maxwell's brigade of the Seventh division occupied Vlakfontein and Schauskraal a row of kopjes, without meeting with opposition. But the mounted infantry were engaged for some time."

## Ready For the Opening.

Chicago, May 1.—The Methodist Episcopal church is represented from all corners of the earth by delegates here. Of the 750 delegates at the opening meeting of the general conference of 1900, all have arrived. This number does not include the provisional lay delegates. The contest over seating the provisional lay delegates will follow the devotional exercises. It is predicted the contest will be spirited, and that it will consume at least the first three days. In the ranks of the provisionals the case of Mrs. M. Y. MacMahon, the Griggsville, Ills., delegate, was the cause of much speculation.

## Witnesses Examined.

Frankfort, Ky., May 1.—The examination of witnesses on the motion for a change of venue for Powers, Davis, Combs, Youtsey and Whitaker was resumed. Lewis Trumbo, farmer and clerk, testified that he had talked to many people and no one had said defendants could not get a fair trial in this county. E. Bailey, farmer, said he had not heard the question of fair trial discussed, but thought men in his precinct were unprejudiced. Lewis Cox, farmer, thought a fair trial could be had here.

## ADMIRAL D. WEY

Bestows Many Smiles Upon the Young Ladies During Parade.

Chicago, May 1.—People of Chicago and the western states saw and cheered Admiral Dewey as he, at the head of a military and civic parade, was driven through the downtown business streets of the city over a line of march that extended for over four miles.

From a raised and beautifully decorated dais in the grandstand erected on the Jackson boulevard side of the new federal building the admiral reviewed the parade in which nearly a hundred different military and civic organizations from all parts of the state participated, and which included veterans of three wars, the Mexican, the civil and the Spanish-American, a squad of sailors who were with the admiral at the battle of Manilla Bay two years ago and marching clubs of the political parties.

All along the line of march the big office buildings and business blocks were ablaze with flags and bunting.

A chorus of 300 young women, dressed in white and blue, were stationed on the steps of the Art Institute, grouped to form the letters of Dewey's name in blue. As they sang patriotic songs, the admiral smiled and bowed to the singers until his carriage was far beyond the buildings.

## Injection Violated Purposed.

New York, May 1.—Samuel Gompers, president of the American Federation of Labor, has taken special pains to violate the injunction issued by Justice Friedman, of the supreme court, prohibiting officers and members of the Cigarmakers' International union from paying benefits to striking employees of S. Levy & Company. In a letter to Morris Brown, secretary of Cigarmakers' Union No. 444, Mr. Gompers advises that the injunction be absolutely disregarded and incloses a check for \$5 to be used in paying a man to picket Levy & Company's shop, and to inducing Levy & Company's employees to remain on strike.

## A Church Decision.

London, May 1.—The archbishops of Canterbury and York have rendered judgement on the subject of the reservation of the sacrament. They said they were obliged to decide that the church of England did not allow reservation in any form, and those believing it ought to be permitted, while justified in endeavoring to get the law altered were not justified in practicing reservation until the law was changed. The term "reservation of the sacrament" means the preservation of some of the eucharistic elements, specially the bread, for adoration and for use with the sick or with prisoners.

## Two Scholarships Awarded.

An Arbor, Mich., May 1.—The American school of classical studies in Rome offered for the year 1900-1901 three fellowships, two in Roman archaeology and one in Christian archaeology, competition being open to graduates of all American colleges. Two of the fellowships have just been awarded to members of the graduate school in the University of Michigan, the fellowship in Christian archaeology to Mr. Charles R. Morey of Charlotte, Mich., A. B., 1899, and one of the others to Mr. George H. Allen of Grand Rapids, Mich., A. M., 1899.

## Electrical Bells Furred.

Constantinople, May 1.—The circular issued by the porto relative to increasing the customs duties states that the raising of the duties to 11 per cent is more in the nature of a project than of a decision, it inviting the embassies to acquiesce. The circular maintains that a provisional measure is rendered necessary by the exigencies of the financial situation and requests the embassies to appoint delegates to conclude new treaties. An order has been issued prohibiting the importation of all electrical apparatus, including bells.

## News From Mafeking.

London, May 1.—A dispatch from Mafeking, dated April 20, says: "The Boers have been busy for several days blowing up the railway southwards. There was little firing during the past week. The town will respond cheerfully to Lord Roberts' request to hold out for another month. Fever is rife, but otherwise the health of the garrison is good and all are well."

## Allen Inaugurated.

San Juan de Puerto Rico, May 1.—The inauguration of Charles Herbert Allen, formerly assistant secretary of the United States navy, as first American civil governor of the island of Porto Rico, took place. The ceremony was most impressive. Governor Allen made an inaugural address.

New York, May 1.—The opening exercises of the Ecumenical conference drew a large attendance. The exercises were led by S. B. Capen, LL. D. The regular meeting at Carnegie hall was presided over by Dr. Edward Judson of New York.

## THAT HINT EXPLAINED

Innuendo About War In the Address of Secretary Root.

## THE DANISH WEST INDIA ISLANDS

May Become a Bone of Contention Between United States and Germany in Case the Latter Trades For Them.

New York, May 1.—A local paper publishes an elaborate article declaring that Secretary of War Root's address at the Grant dinner last Friday night, in which he hinted at the possibility of war to maintain the Monroe doctrine, was called forth by an intrigue concerning the Danish West Indian islands.

It appears that H. Heingers of the Standard Oil company made a verbal agreement with Denmark, that if he should negotiate a sale of the island he should receive a commission of 10 per cent of the purchase price. Captain W. von Christmas Direcknucke-Hohenfeld has also been acting as agent of the Danish government. All accounts agree that Denmark is very anxious to get rid of her West Indian islands.

Mr. Rogers and Captain Christmas having quarreled, and the former having declared that it was in his power to defeat any negotiations that did not recognize his right as agent, Captain Christmas advised Secretary Hay of a plan to exchange the islands with Germany for territory in Europe.

He states that unless congress acts on the Danish West India matters before June 1 a scheme will be carried out to exchange the islands with Germany for the whole or a part of North Schleswig Holstein, which was taken from Denmark by Germany in 1867, and which country it has always been the fondest hope of all Danes to recover.

The sudden appearance in this country of Secretary White of the American embassy in London has also to do with this matter of the sale of the Danish West India islands. Mr. White was the agent of the United States in Denmark during the negotiation, and to him the Danish government named the price it wanted for the islands between \$3,000,000 and \$4,000,000.

Mr. White, it is said, failed to tell the state department that the United States would have to buy the islands during this session of congress or abandoned all hope forever of getting possession of them, and that he also did not impress upon the state department the fact that falling in negotiations with the United States, Germany was sure to get possession of the island either through cession or lease.

It is to make these matters more clear to the state department while congress is still in session that Mr. White was summoned here.

It was not until the early part of 1899 that negotiations concerning the Danish West Indian islands were taken up. At that time Captain Christmas was sojourning in Germany as a retired captain of the Danish navy. He had just returned from a trip to the Danish West Indian islands, where he had been making maps of the harbors and fortifications there. He was approached by a syndicate of Germans, who asked him to use his influence in Copenhagen to obtain from the Danish government a contract with Germany, by which the latter could purchase the island of St. John.

Captain Christmas was not slow in asserting that this would be next to impossible, for the reason that the United States would neither allow Denmark to sell the island to a foreign power, nor would it allow Germany to purchase it because of the Monroe doctrine.

In his report to the Danish government, Captain Christmas attaches the proposition of the syndicate to his papers. This shows that the head of the syndicate was Admiral von Zirzow of the Royal German navy, and that he and others of the syndicate had in anticipation of the ceding or the sale of the island to Germany bought up options on all the land adjacent to the harbors and so, in the event of the acquisition of the island by Germany, he and the members of the syndicate stood in the position of virtual owners of land, and could dictate terms of the purchasing power. When the impossibility of this scheme was pointed out to Admiral von Zirzow, he asked Captain Christmas to obtain concessions.

Captain Christmas, while apparently falling in with their scheme, laid the whole matter before Minister Hoerring in its true light. The outcome of this was that permission was denied on diplomatic grounds. The Danish government recognizing that should any such complications arise

the sale of the islands to the United States would be next to impossible. This led to Captain Christmas coming to America.

## DOPPED HIS MOTHER

And Then Skipped Out With \$70,000 Worth of Property.

Chicago, May 1.—The Montreal (Que.) police were notified to arrest Thomas Neveu and a woman of the name of Sadie Carroll, said to have left Chicago with property valued at \$70,000, alleged to have been stolen by young Neveu from his mother. Mrs. Neveu, mother of the young man, made the complaint to the police. She said she and her sons, Thomas and Arthur, had recently returned from Cape Nome. In a valise she kept diamonds, gold dust and negotiable paper, valued at \$30,000, and other papers showing her right to a claim on Bonanza creek. The claim, she said, was worth \$40,000. According to Mrs. Neveu's story, Thomas put some kind of opiate in her tea, and she remained in a deep stupor till evening. When she awoke she found that her younger son and the valise, containing her property, had disappeared.

## Strike on the Section.

Seymour, Ind., May 1.—The Baltimore and Ohio Southwestern has a strike on large proportions. All the section men and the extra gangs on new work from St. Louis to Parkersburg, W. Va., are out. About 3,000 men refused to go to work. They want \$1.50 a day. The section men have been getting \$1.15 and extras \$1.25. Fear is entertained lest the trainmen go out in sympathy. There are 20 idle trackmen here.

## Went to Hear Bryan.

Columbus, O., May 1.—The local Democratic clubs attended to the seating of the vast audience which assembled to hear Hon. W. J. Bryan at the Auditorium. Many ladies were present. Congressmen Lentz and General A. J. Warner accompanied him from the hotel. The distinguished orator made an unusually fine speech.

## New Trial Granted.

Pottsville, Pa., May 1.—The long delayed decision of the court relative to a new trial for the seven Lithuanians, who were found guilty in November, 1899, of the murder of Joseph Rutkowski, at Willian Penn, has resulted in an order for a new trial. It was claimed the "Yukos" society, a secret organization to which they belonged, had decreed his death.

## Acknowledged the Summons.

New York, May 1.—John Gates, chairman of the board of directors of the American Steel and Wire company, was served with a summons in the criminal proceedings for alleged wrongful actions as a representative of the company. Mr. Gates acknowledged the service with a smiling "Thank you."

## Strike In the South.

Savanna, May 1.—It is claimed by the president of the Building Trades council, representing all branches of labor connected with building in Savannah, that 800 men are on a strike in that city. They include carpenters, painters, bricklayers and plasterers.

## Will Not Accept.

Chicago, May 1.—Admiral Dewey has decided not to accept the invitation to visit Canada in July. The admiral's time will be so occupied for the next few months that he finds it impossible to accept, although he would much like to do so.

## Rolling Mills Closed.

Toledo, May 1.—The East Side rolling mills here, which are a part of the Republic Iron and Steel company's system, have shut down indefinitely, throwing 300 men out of work. Lack of orders is given as the cause of the suspension.

## Plunged Into the Bay.

San Francisco, May 1.—An engine and seven empty cars of the Santa Fe road were thrown into the bay from the new Santa Fe wharf in this city by the breaking of an apron. No one was killed so far as known.

## For Porto Rico.

Washington, May 1.—Joint resolutions continuing the present administrative officials in Porto Rico under appointments are made and the civil government law was signed by the president at 2:30 p. m.

## Roberts Jury Disagrees.

Salt Lake City, May 1.—The jury in the case of Brigham H. Roberts, on trial for unlawful cohabitation, disagreed and was discharged.

## Bradley's Argument.

Washington, May 1.—The supreme court resumed its hearing in the Kentucky governorship case, Hon. W. O. Bradley, former governor of that state, being the only speaker.

## Bricklayers Strike.

Pittsburg, May 1.—About 1,000 bricklayers and 500 hod carriers struck for an increase in wages and shorter hours. The scale of the Brotherhood of Carpenters and Joiners was signed by the Master Builders' association, and all are at work.

## IN THE LABOR WORLD.

Movement to inaugurate Shorter Work Day Causes Friction.

## STRIKES RESULT IN MANY CITIES.

Superintendent of Motive Power of the New York Central Will Meet the Striking Employees at Buffalo.

New York, May 1.—Superintendent Arthur M. Wiatt will leave for Buffalo at night to confer with the striking employees of the New York Central railroad. Upon Mr. Wiatt's arrival at his office he found a telegram from Commissioner Webster of the state board of mediation and arbitration at Buffalo, asking him to meet the strikers' executive committee in Buffalo. Mr. Wiatt wired that he would go to Buffalo later. He afterward said he would try to arrange some satisfactory settlement of the wage schedule, but the reports showed no freight trouble as the result of the strike, and he thought the company was carrying too many men on his payroll for the amount of business it was doing.

A Sympathetic Strike.

Buffalo, May 1.—Word has been received at headquarters of the workingmen that the shopmen of the Delaware, Lackawanna and Western had gone out in sympathy with the New York Central men. Mr. Fish estimates that this adds 5,500 men to the striking force.

## To Enforce Eight-Hour Decree.

Philadelphia, May 1.—The struggle for an 8-hour work day, which has been under consideration by the labor unions of this city, began in earnest, when, according to Secretary Joseph B. Allen, of the Allied Building Trades council, workmen representing every branch of the building trades went on strike to enforce by a concerted movement the demands of the unions. Nearly 3,000 men are reported to have quit work, and this number is but a small representation of the total membership of the Allied Building Trades council, which embraces about 95 per cent of the men employed in the building trades. The fact that so few workmen were compelled to strike is considered by the unions as favorable to their side. The movement for a working day of eight hours and a general increase of wages, averaging about 25 per cent, began some months ago. At a recent meeting May 1 was decided upon as the day for presenting the demands. Representatives of workmen were scouring the city, and up to the present time Secretary Allen reports the signing of many agreements with employers, though unable to give the exact number. Entire police force has been ordered on duty in anticipation of possible trouble, but there have been no disturbances as yet.

Iron Workers Strike.

Cincinnati, May 1.—The architectural iron workers have decided to strike because their demands had been acceded to by one firm, the Steward company, whose employees are not in the union. About 800 men are involved. The demand is for a 9-hour day, with the same wages as is paid for 10 hours, 50 per cent additional for overtime and double pay for Sunday work. The men say that a general strike will be inaugurated if their demands are not soon met.

Omaha Carpenters Idle.

Omaha, May 1.—All the union carpenters are idle and not a single contractor of importance did any business. The men demand an 8-hour day, an increase from 35 to 40 cents an hour and the exclusive use of union label planing mill material. The contractors would be willing to concede the demands regarding wages, but say they cannot secure material promptly at all times if confined to union planing mill and sash and door works.

Freight Handlers Strike.

Ludington, Mich., May 1.—Two hundred freight handlers employed by the Pere Marquette railroad here have gone on a strike. In making a contract for the ensuing year, the company refused to pay the grain handlers 30 cents an hour, an increase of 10 cents over last year. The freight truckers ask only the same pay they have been receiving. The men all belong to the American Federation of Labor.

The U. S. Senate should not stop with Quay and Clark. It is the general verdict that one of the Ohio Senators has no more right there than has Senator Clark

A DISPATCH from Washington says the Republican administration admits the charge that large extra allowances have been made to army officers of high rank and higher salaries, but excuses it on the ground "that the power of the President is above statutory law when acting under military law."

"It is well known," adds the writer, "that military law is pretty bad law and the President, if he is disposed to do so, can hand over the contents of the treasury to army officers, but the question is should the President give away the people's money when there is no necessity for it? By the way, what was done with that fifty millions of dollars voted to the President at the beginning of the war? Did all that sum go to the army officers and the political pets of the firm of Hanna & McKinley?"

RECENT developments bring to light the fact that many of Mr. McKinley's appointees down in Cuba have been receiving several thousand dollars extra pay, over and above their salaries, all paid without any authority or right and simply to enable them to "live in a manner befitting their stations." The money was taken out of the Cuban revenues, and it could have been spent to much better advantage to lighten the burdens of the unfortunate people of the island. Of course Mr. McKinley approved the whole business. But in the face of such a record in Cuba, the Republican authorities in Washington have denied to Admiral Dewey the compensation of \$10,000 allowed to the civil members of the Philippine Commission. For this the plea is that it would be unlawful for Admiral Dewey to draw two salaries at one time. They seem to lose sight of the fact, however, that these McKinley appointees down in Cuba are virtually drawing two salaries. For this there is no more law than there would be for paying Admiral Dewey for serving on the Philippine Commission.

COMMENTING on the hue and cry of Republicans that some "innocent man" will be punished for the cowardly murder of Goebel, the Paris Democrat says:

If the parties accused are innocent, they need have no fear. We do not recall a single instance, in the history of the State, in which an innocent man has ever been convicted of crime. If the men now indicted are not guilty beyond a doubt, they will be acquitted. There is no purpose on the part of anyone to permit any innocent person to be convicted.

Of course the officers of the law have some difficulty in discovering all the guilty, and there is well-grounded fear that some of the more guilty may escape; but the officers are doing their duty bravely, and, no doubt, conscientiously. Every good citizen of the State should be willing to assist in bringing the criminals to justice.

But some men are not good citizens. They are blindly partisan. They are now afraid that some innocent man may suffer. These same men expressed no fear that the innocent might suffer when the mountain desperades terrorized Frankfort. They had no apprehension that the innocent might suffer when Wm. Goebel was murdered by cowardly assassins. But now when there is a strong probability that the law will be enforced and the assassins and their abettors brought to justice, these what shall we call them—these canting hypocrites—become fearfully alarmed lest some innocent man may be condemned. The courts are abused, the officers of the law are denounced, juries are distrusted.

The real trouble with these "canting hypocrites" is they fear that the cowardly assassins will receive their just dues. While no "innocent man has ever been convicted of crime in this State," too many whose hands were red with human blood have gone scot free.

I WILL pay you your own price for a match to my hearse-horse.

M. F. COUGHLIN.

Lincoln, who attended her that fearful night. #### WEEKLY CROP BULLETIN.

Wheat Still Promises a Fine Yield—Corn Planting in Progress—Tobacco Plants in Good Condition.

The week opened up with good showers in progress; this was followed by generally fair, warm weather, with abundant sunshine. Under these favorable conditions everything advanced rapidly.

Wheat continues to promise a full crop. Damage by the Hessian fly is apparently confined to a small area and is not important.

Corn planting progressed rapidly during the latter part of the week and it is coming up nicely in early fields.

Tobacco plants, while a little late, are in good condition and quite abundant.

The outlook for fruit was never better at this time of the year. Strawberries are beginning to bloom. Potatoes are coming up and gardens have improved rapidly. Oats have improved but are not very good in many localities. Clover and grass have made a very decided improvement.

Farm work is well up, considering the lateness of the season. There is some complaint of cut worms in several counties, but no serious damage has resulted so far.

The entertainment by the department of physical culture at Hayswood Tuesday evening, May 8th, will be given in the lecture room of the First Presbyterian Church. There will be a nominal charge of 15 cents. Tickets will be on sale at the drugstores of Mr. J. C. Pecor and Mr. J. J. Wood. Those purchasing tickets can have their seats reserved by stating that they want a reserved seat when purchasing the ticket.

### APRIL WEATHER.

Rainfall Was Very Light, the Precipitation Amounting to Less Than Two Inches.

Sunshine, what was needed by all vegetation, predominated in April, and as a result Mother Earth is fast being clothed in a beautiful fresh garb of green. During the month there were seventeen clear days and thirteen cloudy or partly cloudy. While there was rain on ten or twelve days, yet it was very light, the total precipitation amounting to only 1.60 inches.

The highest temperature was 88° on the 29th, and the lowest was 24° on the 5th. The mean for the month was 54.5°.

The prospect for a bountiful wheat crop continues good. Peach, pear, cherry, plum and apple trees have blossomed under favorable conditions and with reasonable weather from this on the trees will be loaded down with fruit.

A good rain would improve all vegetation. The precipitation was not only light in April, but there was a deficiency also in March.

## THE MAYSVILLE BAND.

New Members Have Been Added, and it is Now in Better Shape Than Ever Before.

[Aberdeen Gretna Green.]

Maysville's famous reed and brass band is now rejuvenated and is in the best shape since its existence. Besides adding some new members, it retains all its old well-known superb musicians, and, during the coming season, will add new laurels to its well earned reputation.

They have numerous engagements for the coming season at home and abroad, and have just added a full line of the newest and best music to their repertoire.

They are now in the field to fill all engagements where a strictly first-class organization is desired. The reputation of the famous Maysville Band is second to none, and the coming season will see it retain this already high reputation.

Aberdeen people will have the extreme satisfaction of listening to an open air concert by this justly celebrated and standard musical organization in the near future, of which due notice will be given in these columns.

Maysville should be proud of her musical organization and encourage it in a substantial way.

The Gretna Green well says that Maysville should encourage this splendid musical organization in a substantial way. In former years our citizens listened with delight to the concerts given by the band, and it is the hope of many that these popular open air entertainments may be revived. With proper encouragement Maysville could have a band second to none in the country.

We have no smallpox nor Goebel Itch either. The only Goebel disease in the neighborhood is that of the heart, which, while it affects many with feelings of sadness, others are affected, no doubt, with feelings of remorse.
